## SUMMARY

---

A passionate Software Engineering student at Indramayu State Polytechnic with a strong interest in information technology and software development. Experienced in building web and mobile applications using React, Vue, and other modern frameworks. Proficient in Python, PHP, HTML, and CSS, with hands-on experience in Laravel and Flutter for creating efficient, interactive, and responsive applications. With strong technical skills and creativity, I am ready to contribute as an innovative and quality-driven Full-Stack Developer.

## EDUCATION HISTORY

---

### Software Engineering, Indramayu State Polytechnic

provisional GPA of 3.86  
*September 2022 until now*

## EXPERIENCE

---

### Cashier Management Website, Indramayu State Polytechnic

Developed a cashier management website as a campus project to simplify and organize transaction processes in retail operations, including features for product management, sales tracking, and report generation.  
*September 2023 until Desember 2023*

### VSGA Junior Network Administrator Certification – Digital Talent Scholarship, Ministry of Communication and Information Technology (Kominfo)

Participated in a professional certification program focusing on computer network fundamentals, network configuration, troubleshooting, and network security to develop practical skills as a Junior Network Administrator.  
*Juli 2023 until Agustus 2023*

### Website for Grated Coconut Sales and Delivery in Jatibarang, Indramayu

Created a website to simplify the sales and delivery process of grated coconut products in the Jatibarang area, featuring order management, delivery tracking, and customer convenience improvements.  
*Februari 2024 until Juni 2024*

### Website and Mobile Application for Travel Car Rental Services, Indramayu State Polytechnic

Designed and developed a website and mobile application to manage car rental operations, including vehicle listings, booking management, and customer transactions to improve service efficiency and accessibility.  
*September 2024 until Desember 2024*

## **Full-Stack Developer Intern – AOSODOMORO Order Platform, PT Telkom Indonesia Tbk**

Contributed to the development and maintenance of the AOSODOMORO order platform website, focusing on front-end and back-end features to enhance system performance and usability.

*Juli 2025 until Desember 2025*

## **Full-Stack Developer Intern – Proyek Website AGENT AI, PT Telkom Indonesia Tbk**

Contributed to the development of AGENTAI, an AI-based platform that accelerates the creation of SPH (Price Offer Letters) for customers. Responsible for developing the “Kawasan” feature and handling both front-end and back-end implementation.

*September 2025 until Desember 2025*
